

## Practice 2 — Thu Sep 3 — "Keep control, add movement"

10U Boys · Dana Middle School · 6:00–7:30 · Kids end 7:20 sharp · Flash water every 15–20 min, drink-when-you-pass

| Time      | Activity                                       | Notes                                                                                                                                                                                                                                           |
|-----------|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6:00–6:05 | Arrive-and-play: <b>Score and Reset</b>        | Goal far end, cone line near end, pre-set. Score, dribble back to the line, shoot again. Jersey bag stays on the sideline.                                                                                                                      |
| 6:05–6:10 | Opening huddle: <b>Sportsmanship + Captain</b> | 3 min talk max. Captain rotates, I pick him each game, captain gets the coin, I'll say what earned it. Tuesday examples: Beckett getting back up, Cortez taking goalie.                                                                         |
| 6:10–6:15 | <b>Warm-up routine</b>                         | Jog · high knees / butt kicks · side shuffle · gate hips · toy soldiers · lunge walk · flamingo · windmills + ankles · 3 stick-landings · 2 sprints                                                                                             |
| 6:15–6:20 | <b>Name rondo, 3-step</b>                      | Chest pass → throw-in (feet down, behind head) → kick. Progression: call the name you're passing AWAY from.                                                                                                                                     |
| 6:20–6:30 | <b>Ball mastery</b>                            | Toe taps, sole rolls, cone weaves + stop / turn / pull-back. Ball each. Tighter cones for the vets.                                                                                                                                             |
| 6:30–6:35 | <b>WATER + Build-out line, part 1</b>          | The line partway across our field. When our keeper has the ball, the other team retreats behind it before we restart. Gives us room to play out. Under 1 min, then demo.                                                                        |
| 6:35–6:45 | <b>Traffic Jam → Dribble Tag</b>               | 5 min: everyone dribbling in a tight grid, I call stop / turn / speed up / switch feet; bump or lose it = 3 toe taps. 5 min: 1–2 taggers (Zayden + a Nasic) tag by touching your ball; tagged become taggers. Nobody sits.                      |
| 6:45–6:50 | <b>WATER</b>                                   | No new topic. Let part 1 sink in.                                                                                                                                                                                                               |
| 6:50–7:15 | <b>SCRIMMAGE</b> (25 min)                      | Set up the real build-out line. Run one goal-kick restart live. Cortez in goal for a stretch. One defending cue only: <b>"get between the ball and our goal"</b> — say it once, then call it out when someone does it (Zayden). Rotate keepers. |
| 7:15–7:20 | <b>Closing huddle</b>                          | 2–3 specific shout-outs. Color/Number Sprint only if the scrimmage fizzled.                                                                                                                                                                     |
| 7:20–7:30 | <b>Parent huddle: JERSEYS</b>                  | Hand out with parents present, sort sizes on the spot, write down numbers. Volunteer update: refs covered, no AC, still open to a team parent.                                                                                                  |

### Bring

Jerseys · 2 goals · cones (plenty) · build-out line markers · ball each · water bottles lined up on the sideline · pen for jersey numbers

### Watch tonight

**Leon** and **Thomas** — need a closer look. **Daniel** — short instructions, keep him moving. **Zayden** — game framing, call him out when he's locked in. **Mikey / Grayson** — nudge a pass before a shot. **Beckett** — small but tough, keep him in the mix. Bank anything coin-worthy the moment you see it.

Talking-time cap: 3 min per huddle, 1 min per rules chat + a demo. Every kid on a ball, no lines.
